MOTTO: "SERVE IN LOVE"

INTRODUCTION:

Oddanchatram is a Taluk in Dindigul District of the state of Tamil Nadu, located on the main road between Dindigul and Palani, accessible by both train and road. During 1950's Oddanchatram was surrounded by poverty stricken villages and people with severe malnutrition and anemia. Leprosy was prevalent in many villages. Most of the people lived in thatched houses and repair was beyond their reach. Unemployment added to the misery. It was during this period that, the founder, Dr.A.K.Tharien , having surrendered his life to Jesus Christ, wanted to use his medical skills to uplift the poor and marginalized, as he practiced out pouring of his faith, depending on God

HISTORY:

The Christian fellowship Hospital is run by The Christian Fellowship, a charitable society which was established by a small group in 1955. It began as a small one room clinic in response to certain perceived needs in a backward area. It was started with the charitable and benevolent purpose of promoting spiritual, moral, mental and social advancement of the community, in and around Oddanchatram. It aims to serve as a Christ centered witness through the ministry of whole person healing and being involved in other developmental programmes of the community.

At present the hospital has 300 beds with major specialty departments. The outpatient department has an average attendance of over 1000 patients daily. Over 1000 deliveries are conducted and over 3500 operations are performed annually. The busy intensive care unit is equipped for emergency care including coronary care. There is also a pediatric ICU and nursery. Great emphasis is placed on community health programmes by organized village clinics, home visits, school health education programmes and other projects for development and education.

Community health services involve activities of prevention of disease and health promotion, curative care and sound referral system. The institution has its own community health centers, one in Pachalur (rural) hill area and four in Oddanchatram(urban), which covers 25,000 population. The institution also works in collaboration with the Government in delivering health care services to the community in and around Oddanchatram. Nursing students are actively involved in all the programmes along with the community health department.

The hospital and all its programmes are self-supporting and the educational training programmes are heavily subsidized. This has been possible because of the grace of God and the sacrificial service of committed staff who make a deliberate attempt to reduce cost of spending by adopting a simpler lifestyle and functioning.

In the light of the above, there was immense need for adequate staff and therefore training of nurses was a felt need. In 1978 the school of nursing was started with A.N.M course. In 1980 it was upgraded to the General Nursing and Midwifery (GNM) course. In 2019 it was upgraded into College of Nursing and permitted to admit 60 Students annually, of these 30 are Management and 30 are for Counselling students. These students are able to fulfill all their requirements because of the variety of patients coming to the hospital and the number of programs available in the institution. Those Who have graduated from the School of Nursing have been placed in various hospitals and colleges in India and abroad. The First Batch of B.Sc., Nursing student have successfully completed their course in November 2023.

VISION STATEMENT:

“ WHOLESOME HEALING FOR TRANSFORMATION ”

MISSION STATEMENT:

- ⇒ To provide ethical, holistic, Low cost and Effective Health care to all, with focus on the Marginalized.
- ⇒ To train and nurture staff and students in healthcare skills and apply Christian Principles in life.
- ⇒ To continue as self-supporting body, looking to God in faith, showing the love of Christ in word and deed.

The Motto of The Fellowship is to “Serve in love ”and its goal is to proclaim and participate in Christ`s mission of liberation from sin, ignorance, sickness and suffering.

COLLEGE OF NURSING

AIM:

To develop qualified nurses who will excel in rendering the best possible nursing care to patients in the hospital and community.

OBJECTIVES:

- * To help students develop physically, spiritually and mentally to a high standard.
- * To participate effectively as a member of the health team in health care delivery system.
- * To promote and strengthen the nursing skill for better competence in providing holistic care in general and patient care in nursing profession.
- * To demonstrate leadership and managerial skill in clinical /community health setting.

B.SC. NURSING:

The B.Sc Nursing programme is a 4 year course designed to enable students to get wider understanding of nursing, based on scientific principles and clinical experience. In the course of the study, the student nurses are posted in Medical, Surgical, Obstetrics, Pediatrics, Operation theatre and all others areas of specialization. The spacious class rooms, well equipped laboratories ,library with recent editions of books and also both Indian and International publications, and journals are available to add on learning. Highly qualified teachers endeavor to excel in whatever they do, with the love of Christ, to transform the students into outstanding nurses.

The course is affiliated to Tamil Nadu Dr.MGR Medical University, and University examinations are held at the end of each semester.
